Adobe Aero is a tool that allows users to create augmented reality (AR) experiences without the need for advanced coding knowledge. With Aero, you can design and visualize interactive 3D graphic elements, overlaying them in the real world through a mobile device's camera or a

desktop environment. It is ideal for creators who want to add AR to their marketing, design, education, or entertainment projects. Aero allows you to import assets from applications like Photoshop, Illustrator, and Dimension, making it easier to create immersive experiences. Additionally, you can share AR experiences via links or QR codes so others can view them on their mobile devices.

This product includes a license linked to your user account. Valid for three months, for one PC per license.

Compatibility:

Adobe Aero Requirements:

Operating System:

- iOS: Requires iOS 13.2 or later. Compatible with iPhone and iPad.
- Windows: Windows 10 or later (64-bit versions only). Aero is not yet available for macOS.

Processor:

- iOS: Requires devices with an A11 chip or later for the best augmented reality (AR) experience.
- Windows: Intel or AMD multi-core processor with 64-bit support.

RAM:

- iOS: Depends on the device but works best on newer models.
- Windows: Minimum 8 GB.
- Recommended: 16 GB or more to handle complex augmented reality projects.

Disk Space:

- Windows: At least 2 GB of available hard drive space for installation. An SSD is recommended for better performance when handling AR files.
