Description

Adobe Character Animator is a specialized tool for creating real-time animations using 2D graphics and facial motion capture. It allows users to animate digital characters using their own voice and facial expressions, thanks to the integration of webcams and microphones. With Character Animator, characters can automatically sync with actors' movements in real time, making it easier to produce animations for television, live streaming, or social media. The tool is ideal for content creators, animators, and studios that need to generate quick animations without the complexity of traditional animation methods. It also integrates with Adobe Photoshop and Illustrator, enabling the creation of detailed and customizable characters from scratch.

This product includes a license linked to your user account. Duration: three months, for one PC per license.

Compatibility:

Adobe Character Animator Requirements:

Operating System:

- Windows 10 or later (64-bit versions only).
- macOS 11 (Big Sur) or later.

Processor:

- Minimum: Intel or AMD multicore processor with 64-bit support.
- Recommended: 4-core processor or higher for optimal performance.

RAM:

- Minimum: 8 GB.
- Recommended: 16 GB or more for handling complex animations.

Disk Space:

- Minimum: 3 GB of available hard disk space for installation. An SSD is recommended for storing animation files and improving performance.

Screen Resolution:

- Minimum: 1280 x 1080 display.
- Recommended: 1920 x 1080 (Full HD) or higher.

GPU:

- Minimum: DirectX 12 (Windows) or Metal (macOS) compatible.
- Recommended: Dedicated graphics card with at least 4 GB of VRAM to enhance the real-time animation experience.

Webcam:

- Required for facial motion capture, used to animate characters in real time.

Microphone:

- Necessary for voice capture and automatic lip-syncing.

Delivery:

After purchase, we will send a link to link your account to the Adobe Character Animator subscription.
