Description

McAfee LiveSafe has received millions of positive reviews for its exceptional malware protection. Another significant feature is the inclusion of a free VPN, meaning no additional cost to you, allowing you to browse all internet networks while safeguarding your device from any harmful viruses.

McAfee includes one of the best password management programs. The McAfee True Key manager can use facial recognition as an access credential. It is available for your PC, Mac, or mobile device and can be used on up to 10 devices, with a duration of 1 year.
