Description

The BitDefender Antivirus provides features that protect and care for your device against malware, spyware, adware, and ransomware. It includes other application-specific features such as: a dedicated browser that safeguards banking and shopping transactions to prevent fraud; web filtering technology to block certain networks.

BitDefender Antivirus offers antiphishing protection, anti-fraud warnings, and an antispam filter. This plan also comes with an anti-tracker extension, social network protection, a password manager, a file shredder for permanently deleting files without leaving traces, a vulnerability assessment that scans and suggests solutions for outdated and vulnerable software, missing Windows security patches, and potentially unsafe system settings, and more.
