Description

BitDefender Antivirus provides features that protect and safeguard your device from malware, spyware, adware, and ransomware. It includes specific application features such as: a dedicated browser that secures banking and shopping transactions to prevent fraud; and web filtering technology to block certain networks.

BitDefender Antivirus offers anti-phishing protection, anti-fraud warnings, and an anti-spam filter. This plan also comes with an anti-tracker extension, social network protection, a password manager, a file shredder to permanently delete files without leaving traces, a vulnerability assessment that scans and suggests solutions for outdated and vulnerable software, missing Windows security patches, and potentially unsafe system settings, and more.
