Description

This version supports Windows Server and centralized management, including SQL/Exchange restoration. With EaseUS Todo Backup Server, clone, update, or transfer your files with ease. This software allows you to back up all data and settings from a partition or from all the hard drive partitions, ensuring your company's data integrity against corruption.

It offers tools for your Windows Server backup and PXE network boot. Disk cloning and OS migration to SSD/HDD are also supported.

Recommended for:

Businesses, technicians, or professionals who need to protect their server data and then instantly restore their files (backup previously made with the same program). If you require a single-use version or a shorter duration at a lower cost, please visit our one-month and two-year versions.

Compatibility and operating systems:

Supported operating system:

Supports Windows server.

[Windows 10/8/7/Vista](#)
