Description

AVG PC TuneUp is distinguished by its comprehensive range of tasks, encompassing cleaning, repairing, and accelerating system aspects to ultimately extend the lifespan and enhance the efficiency of your computer. It also includes applications designed to optimize, personalize, and correct system errors.

AVG PC TuneUp offers an abundance of features aimed at improving your computer's management. These features include adapting and informing, organizing and repairing, optimizing and enhancing, managing and controlling, as well as recovering and destroying data—all with the goal of prolonging the device's lifespan and boosting its efficiency.

AVG PC TuneUp provides a solution by reviewing all installed programs and removing those that pose a barrier and offer no utility. This suite of applications has been awarded the Computer Hoy Quality Seal. AVG PC TuneUp enables hard drive defragmentation, temporary files deletion,

and automatic adjustments to increase internet browsing speed, as well as registry defragmentation and error correction. It can be used on 3 computers for 1 year.
