Description

McAfee Internet Security is a comprehensive antivirus solution that will protect your device from acquiring any type of virus online or on the internet. The level of protection is quite satisfactory for most users, and updates are delivered on a regular basis. The entire process of updates and maintenance occurs in the background, without requiring user intervention or interfering with computer tasks. Thus, it excels in silencing notifications while it takes care of your PC.

McAfee Internet Security automatically detects and neutralizes most security threats to your device, without the need for you to manage it. A feature of our McAfee Internet Security is its straightforward interface, which gives you quick access to all its functions.

Furthermore, McAfee Internet Security prevents instant messaging programs from sharing personal information. It also offers users several important features regarding their computer's security. In addition, its incredible firewall will not allow any unauthorized diversions in internet access.
