Description

Access is an Office program commonly used for reading and editing databases. This program is available for purchase either as part of a package or individually. There are individuals who opt for lighter Office versions (such as the Home and Student or Home and Business versions) that do not include Access; therefore, acquiring this license allows for the separate installation of Access, in a manner similar to the Visio and Project programs.

This version of Access is only compatible with Office 2021. If you have Office 2019 without Access, please opt for Access 2019.

Recommended for:

- Individuals who have already paid for an Office subscription or license but do not have Access.
- Individuals who require Access alone and no other programs.

Compatibility and Operating Systems:

Access 2021 is only compatible with Windows 10 and Windows 11; it will not work on any other operating system. If you have Windows 7, 8, or 8.1, please purchase Office 365 or Office 2016, which include Access.

Product Installation:

If you already have Office, you can install Access alongside your existing Office suite; it installs as a separate program.

Product Delivery:

This product is provided as a 25-digit digital license code. After making your payment, an email will be sent to you containing the activation code and instructions. The email will include a manual to guide you through the installation process easily, using the official system provided by the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support.
