Description

Project 2019 is an extra Office program that is sold separately. It is a program used in the management field to create project diagrams of all kinds.

This version of Project differs from the more economical license (Project 2019 Pro) in that it can be transferred to a new device through the administration panel of your Microsoft account.

Recommended for:

- Anyone who needs to purchase Project
- People who need to use Project as a standalone program and not as a subscription.

Compatibility:

- Project 2019 is exclusively compatible with Windows 10 and Windows 11.
- If you have an older version of Windows, prefer Visio 2016, which is compatible with all Windows versions starting from Windows 7.
- If you have a Mac, you must install a Windows 10 virtual machine, as it is not compatible with Mac.

Product Delivery:

This product consists of a 25-digit digital license code. After payment is made, an email will be sent with the activation code and instructions. The email includes a manual so you can easily install it yourself, through the official system of the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support
