Description

Office 2024, launched in October 2024, is the latest version of Office available as a perpetual license. It differs from the previous version (Office 2021) by including AI-based features, such as Microsoft Copilot, which were previously only available with Microsoft 365.

This product does not require annual payments and includes a 25-character license key.

It differs from Office 2024 Pro Plus in that it works for both Windows and Mac and allows reinstallation (moving the activation from one PC to another). However, it does not include Publisher and Access.

Recommended for:

- Businesses looking for the latest version of Office without usage limitations and without annual payments.
- Individuals who only have one device and want to pay for Office once.
- Anyone looking to save in the long term by avoiding annual maintenance fees for the program.

Compatibility:

- Office 2024 works exclusively on Windows 11 and Windows 10.
- For Mac or Mobile users, prefer Microsoft 365 Personal.
- For Windows 7, Windows 8, or Windows 8.1, prefer Office 2013 or Office 2016.
- If you are looking for a more affordable option, consider Office 2021.

Product Delivery:

This product consists of a 25-digit digital license code. After payment is made, an email will be sent with the activation code and instructions. The email includes a manual so you can easily install it yourself, through the official system of the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support
