Description

Panda Dome Essential is a lightweight and straightforward antivirus solution, specifically designed to protect your devices, including both PCs and mobiles. With it, you are completely safeguarded against all types of viruses and malware.

Panda Dome Essential also identifies and removes all kinds of spyware and other annoying programs that install themselves on your computer without your permission, while it protects your connection through a comprehensive and minimally intrusive firewall and safeguards your personal data and information from scams on the web.

With Panda Dome Essential, you can browse the internet, send and receive emails, play games, and download files without worrying about viruses.

The Panda Dome Essential database benefits from Panda's Collective Intelligence technology, which collects data from all users and is highly effective at addressing the latest threats that emerge. All this is done without the need for updates, as everything is managed from the cloud.

Panda Dome Essential features the most advanced antivirus engine on the market, a firewall, a VPN, protection for your Wi-Fi network, and protection against malicious external devices (such as infected USB drives or hard drives).
