Description

Windows 11 Pro N is the "European" version of Windows that, for legal reasons, does not include certain features available in the standard version of Windows 11.

It is common to find computers sold with this version pre-installed. This license allows for the activation of those devices, as the standard

Windows 11 Pro does not work on Windows 11 Pro N.

Recommended for:

- Users who have the "N" version of Windows and need to activate their operating system.

Compatibility:

Windows 11 Pro is only compatible with 64-bit computers; 32-bit CPU computers cannot install Windows 11.

It can be installed on older computers, but it may be challenging, as it is designed to function optimally on modern systems.

Windows 11 Pro is activated digitally on the official activation server. This means you can wipe your hard drive or change it, and the license will remain on your PC.

It only works on Windows 11 Pro "N"; it does not activate the standard Windows 11 Pro.

Product Delivery:

This product is provided as a 25-digit digital license code. After making your payment, an email will be sent to you containing the activation code and instructions. The email will include a manual to guide you through the installation process easily, using the official system provided by the manufacturer.

Company:

Based in Hong Kong, 3Clicks International Limited reaches customers worldwide, offering original products that activate seamlessly, no matter where you are. We accommodate requests for invoices or quotes, ensuring our global clientele receives tailored support.
